

設定非工作日

非工作日將不納入專案日程

The screenshot displays the 'Working Days' configuration page. The sidebar on the left contains various system settings, with 'Calendars and da...' (1) highlighted. The top navigation bar includes a search bar and a '管' button. The main content area features an orange informational box at the top, followed by the 'WORK WEEK' section. In this section, days of the week are listed with checkboxes; Monday through Friday are selected (2), while Saturday and Sunday are not. The 'HOLIDAYS AND CLOSURES' section below shows the year '2024' and a box for 'Non-working days'. A '+ Non-working day' button (3) is highlighted in the 'Non-working days' box. At the bottom, there is an 'Apply changes' button.
